THE GROUP

We in words

Racing Force Group is the global leader in motorsport safety, innovation, and performance. Through its portfolio of brands – including OMP, Bell Racing, Zeronoise, and Racing Spirit – equips professional drivers, teams, and manufacturers, as well as passionate amateurs, with racewear, helmets, car parts, communication systems, and technical apparel.

Racing Force Group is the only company in the motorsport industry to offer such a comprehensive range of products, contributing each year to numerous victories and titles in both car and kart racing. The Group has also diversified through its HPS brand, applying cutting-edge motorsport technologies to the defense sector. After successfully completing the integration of its brands, Racing Force became a dual-listed company. Since November 2021, it has been listed on the Euronext Growth Milan market (RFG) and, as of September 2022, on the Euronext Growth Paris market (ALRFG). Racing Force Group thus became the first company in its sector to trade its shares publicly.

The Group has a global presence across three continents, with headquarters in Ronco Scrivia (Italy), Sakhir (Bahrain), Mooresville (USA) and Tubize (Belgium). It operates research and production centers, logistics hubs, and Pro-Shops, and employs over 600 people from more than 35 nationalities. Racing Force relies on well-established relationships with professionals worldwide, selling its products in over 80 countries, supported by the largest dealer and distributor network in the motorsport industry.

The Group's core values and work ethics are centered around integrity, respect, dedication, determination, diversity, sound judgment, dependability, accountability, teamwork, loyalty, quality, and safety. Racing Force Group achieves success through a positive mental attitude, optimism, vision, courage, proactiveness, and passion - its true driving force.

THE BRANDS

OMP

Founded in 1973 in Genoa, Italy, OMP is a global leader in motorsport safety, specializing in the design and production of racewear, car parts, and accessories. As one of the few industry players capable of delivering such a comprehensive range of products, OMP adheres to the most stringent homologation standards, including the ones from FIA, CIK-FIA, SFI, and Snell. With a legacy of achievements and continuous innovation, OMP has collaborated with motorsport icons like Ayrton Senna and Michael Schumacher, contributing to world titles across multiple championships and disciplines, between circuit racing, rallying and karting.

BELL RACING HELMETS

Bell Racing Helmets is the world's leading supplier of helmets across all forms of car racing, including circuit, rally, and dirt racing. Founded in 1954 in the United States, Bell still remains the benchmark for safety, innovation, performance, and engineering excellence, delivering the most advanced line of auto racing helmets globally. From the very beginning, Bell helmets have been trusted by more champions across all racing disciplines than any other brand, solidifying its reputation as the most iconic name in head protection for motorsport.

ZERONOISE

Established in 2019, Zeronoise is the electronics division of Racing Force Group, specializing in the engineering, development, and manufacturing of communication technology for the sports industry. Zeronoise's product range includes intercom systems for rally racing and the patented Driver's Eye - the world's most compact real-time TV broadcasting microcamera, utilized in some of the most prestigious motorsport competitions. Through its joint venture with Al Kamel Systems, Zeronoise also offers advanced timekeeping, TV graphics, data management, and race control solutions, further enhancing the accuracy and entertainment value of motorsport events.

RACING SPIRIT

Racing Spirit was created with a clear mission: to channel the passion and heritage of OMP - a brand that has worked alongside the most successful teams and drivers for over fifty years - into premium clothing and accessories. Forged in the fiercely competitive world of motorsport, Racing Spirit has also become a trusted name in other demanding sectors, such as boating. The brand offers a comprehensive collection of apparel for men and women, designed and developed in Italy, blending style, comfort, performance, and functionality.

PARTNER OF THE FIA

FIA Motorsport

OMP OFFICIAL SUPPLIER

For over a decade, Racing Force Group and the FIA have been jointly committed to ensuring the protection of people in motorsport. This collaboration began in 2012 with the first deal between OMP and the sport's governing body, and was further strengthened with the involvement of Bell Racing Helmets.

FIA Motorsport

BELL HELMETS OFFICIAL SUPPLIER

Safety equipment for FIA officials and safety car drivers in every FIA World Championship is exclusively provided by the Racing Force Group brands: OMP for fireproof suits, shoes, gloves, and underwear, and Bell Racing for helmets.

FIA Karting Academy

FIA KARTING ACADEMY TROPHY OMP OFFICIAL SUPPLIER

Furthermore, since 2017, OMP has served as the official supplier to the young talents of the FIA Karting Academy Trophy, now structured into Junior and Senior championships.

OMP

[RACEWEAR | 2026 CATALOG]

ALWAYS PUSHING THE LIMITS

1973

OMP history begins with a Fiat 500 rollbar. Since then, OMP gets noticed more and more, becoming official car parts supplier for many Italian teams and manufacturers.

1982

OMP diversifies its production, entering the racewear market. The company soon supplies its first Formula 1 driver: Mauro Baldi of Arrows team.

1986

OMP is the world's first company to obtain the new FIA ISO 86 homologation standards for fireproof racing suits.

1989

Gerhard Berger survives the flames of his Ferrari, after the crash during the F1 race at Imola. Credit goes to fireproof overalls and gloves made by OMP. Millions of people see those moments on live TV, and the company becomes popular all over the world.

1990

OMP supplies F1 star Ayrton Senna. The partnership will last until the death of the legendary Brazilian driver, with 20 race victories and two world F1 titles scored together.

1996

Michael Schumacher kicks off his Ferrari era choosing OMP overalls and gloves. It's the start of a historic collaboration, sharing 71 wins and five F1 world titles.

1999

OMP ends in style the 20th century, celebrating the fourth consecutive World Rally Championship title along with the Mitsubishi Ralliart team and Tommi Mäkinen.

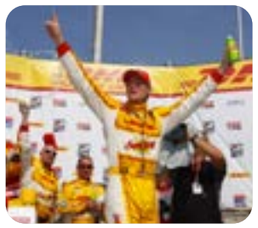

2008

In February the control of OMP is acquired by SAYE S.P.A. Group, held by Delprato brothers from Genova.

2010

OMP returns to Formula 1, signing an agreement with Renault F1 Team to supply its first safety belts designed and built entirely by its R&D department.

2012

OMP conquers the US celebrating its maiden IndyCar Series title with Andretti Autosport driver Ryan Hunter-Reay.

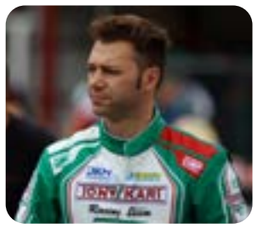

2013

Volkswagen Motorsport opens a four-year WRC domination with Sébastien Ogier and OMP. It's the first of many world titles for the HTE seat.

2013

OMP provides the drivers' overalls for award-winning "Rush" movie directed by Ron Howard, reproducing in detail the 1976 F1 season look.

2016

OMP marks a revolution in the karting sector with the launch of the first ever fully printed suit, the KS1. A new partnership with OTK Group, owner of the Tony Kart brand, also begins.

2017

OMP presents "One Art", the first totally customized fire retardant suit. The Print Art technology guarantees complete control of the design process.

2017

OMP harnesses are chosen by Mercedes AMG Petronas Motorsport Team, which extends its Formula 1 Manufacturers' World Championships streak till the 2021 season.

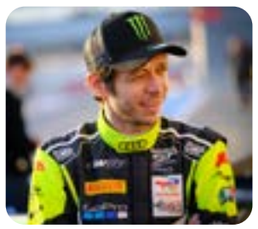

2019

OMP acquires Bell Racing Helmets, giving birth to the biggest worldwide player in motorsport safety equipment.

2021

OMP and Bell Racing unite under the newly formed Racing Force Group, together with emerging brands Zeronoise and Racing Spirit, strengthening their leadership in the safety industry.

2022

MotoGP legend Valentino Rossi begins his full-time car racing career, using OMP racewear and Bell helmets through a multi-year partnership.

2022

OMP supplies Toyota Gazoo Racing WRT for the third World Rally Championship Manufacturers' title in five years, while Kalle Rovanperä becomes youngest ever WRC champion.

2023

OMP becomes official partner of the 24 Hours of Le Mans and the FIA, supplying safety gear for marshals, safety-car drivers, doctors, and all the on-track personnel.

2023

Envision Racing wins an historic FIA Formula E Teams' World Championship using the OMP racewear for its drivers.

2024

As a new partner of Team Penske, the most successful racing stable in America, OMP celebrates victories at the 2024 Indianapolis 500 and secured its first-ever NASCAR Cup Series title.

2025

OMP, together with Bell Racing and Racing Spirit, becomes an official partner of the highly anticipated Formula 1 movie. The collaboration includes supplying racewear, helmets, and team uniforms for lead actors Brad Pitt and Damson Idris, as well as the entire APX GP team.

2025

OMP enters a multi-year partnership with adidas Motorsport to provide racewear solutions, including race suits and gloves, engineered to meet the highest standards of performance and safety for drivers and teams.

2025

OMP introduces the revolutionary Air fabric technology for racewear, establishing a new benchmark with the launch of the One Art Air, the world's most breathable racing suit.

SUITS

OMP AIR TECHNOLOGY
THE WORLD'S MOST BREATHABLE SUITS

AIR

OMP Air is a game-changing advancement in racewear, setting unprecedented standards in breathability and lightness.
This breakthrough technology is born from a completely redesigned fabric compound, engineered to deliver maximum performance without compromising safety, comfort, or freedom of customization.

Developed to keep the driver's body temperature constantly optimized even in the most extreme racing conditions, OMP Air contributes directly to improved performance.

The competitive edge of OMP Air comes from a multi-layer construction of high-tech fire-retardant fabrics working in perfect synergy. At its core is a completely new inner lining - common to One-S Air, One Evo Air and OMP One Art Air - designed to be exceptionally lightweight, soft to the touch, and highly breathable.

Paired with underwear featuring the OMP Dry System, OMP Air suits deliver the ultimate package in breathability, comfort and performance.

one-ART AIR

THE NEW PERFORMANCE BENCHMARK IN RACEWEAR

TRUSTED AT THE HIGHEST LEVEL FROM THE START

Tested and raced throughout the 2025 season in top-tier series such as Formula 1, WRC and INDYCAR, the One Art Air suit has delivered victories, pole positions and podium finishes — including in events contested in exceptionally high temperatures, where OMP's innovation proves its greatest competitive advantage.

SIZES 46-64
sizing information on page 583

TOTALLY PRINTABLE SOFT EXTERNAL FABRIC

OMP's One Art suit takes its biggest ever step forward with the One Art Air, exceeding previous OMP top-of-the-range models by more than 10% in breathability and lightness.

The new Air technology for the internal layer is paired with the innovative TxArt outer fabric, a proprietary solution designed to fully integrate OMP's Art sublimation printing technology. This combination delivers even brighter colours and complete creative freedom for custom designs, while setting a new benchmark in fireproof racewear performance.

Tested and raced throughout the 2025 season in top-tier series such as Formula 1, WRC and INDYCAR, the One Art Air suit has delivered victories, pole positions and podium finishes — including in events contested in exceptionally high temperatures, where OMP's innovation proves its greatest competitive advantage.

OMP's Dry System helps drivers to reduce body temperature and improve their performance. The cooling effect of the inserts is improved when worn with the OMP ONE breathable underwear combined with cooling spray solution. OMP's Dry System is a registered utility model.
More comfort, less heat: a goal that OMP has always pursued, and now concretizes with STRETCH DRY SYSTEM. The maximum breathability of OMP Dry System is combined with the elasticity of 3D materials, to allow the best freedom of movements while reducing body temperature.
Two fundamental elements to help drivers improve their performance.

SEAT TABLE

THE FOLLOWING MEASUREMENTS ARE GIVEN AS A GUIDE.
ACTUAL MEASUREMENTS MAY VARY TO ACCOMODATE PRODUCTION.
Seat fitting type: according to FIA regulations the seat must be fixed to the brackets by means of at least four bolts M8 class 8.8.
The diagram shows the distances between the fixing points in mm.

Bottom fixing points of the sliding guide.

TYPE W: inner side int. 289 mm
TYPE Y: bottom 345x270 mm

LEGEND

A external max width at shoulders
B seat bottom to mid shoulders
C seat bottom max external width
D total height of seat back
E external max width at seat fixing inserts
F seat inner width (belt holes area)
G bottom length
H internal width between side headprotections
I external width between side headprotections
L height from the bottom to the harness slot
W = side fixing **Y** = bottom fixing

***note**

For ***FIA 8855-1999*** seats, the weight refers to the complete seat (tolerance of 10%).
For ***FIA 8862-2009 /FIA 8855-2021*** seats, the weight refers to the shell (tolerance of 10%).

MADE IN ITALY

SERIE 4

- Homologated to FIA 8876-2022, the latest and most advanced FIA standard for plumbed-in fire suppression systems for open cockpit cars
- Covers a wide range of fuels, from petrol to E85 (CLASS I, II, and V)
- The extinguishing medium is:
  - Non-corrosive - Not electrically conductive
  - Residue-free (unlike foam or powder, it leaves no damage and requires no cleaning after discharge)
- The system becomes pressurized upon activation, allowing the extinguishant to discharge effectively
- Electrical system is waterproof and ready for installation
- ECU certified IP65 and IP67 for protection against dust and water

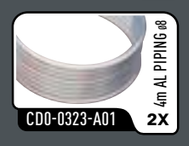

FIA APPROVED
MANUFACTURER: OMP
MODEL: CEFAL4
HOM. NO: FS.003.24
FIA STANDARD: 8876 - 2022

Homologated for use on:

ELECTRONIC CONTROL UNIT FOR FIA 8865-2015 AND FIA 8876-2022 FIRE EXTINGUISHER SYSTEMS AND SERIE 6 TL 16

- Test/Armed Switch & LEDs on a dedicated panel that can be placed everywhere in the cockpit
- Three-ways cable to connect SWITCH & LEDS, activation buttons and bottle to the ECU
- Optimal solution for small cockpit
- Possibility to add extra activation button
- Easy battery replacement
- Customizable cable extensions
- IP65 certified

TWO EXT. ACTIVATION BUTTON CONFIGURATION

CESAL4 LE

CE0-SAL4-D01 € **2.650,00** (C)

MADE IN ITALY

"L" VERSION SUITABLE FOR LARGE SIZED COCKPIT (FROM 2.2 m3 UP TO 4.1 m3)

- Compact and lightweight fire extinguisher system
- Electrically activated, suitable for saloon cars
- Complies with FIA 8865-2015 regulations
- System pressurizes upon activation to discharge the extinguishant
- 3 nozzles for the engine bay to protect the most critical areas
- 2 nozzles for the cockpit to ensure driver front and rear protection
- Includes fixing brackets, clamps, tubing, and connections
- Suitable for electric and hybrid cars

Homologated for use on:
- Homologated for use on: petrol, petrol + up to 30% ethanol or methanol

FOCUS ON

COUNTERFEIT STEERING WHEELS ARE A REAL THREAT TO YOUR SAFETY
But how can we sort out a genuine OMP steering wheel from a fake?

BEWARE OF
Too low prices / Altered OMP logo / Unofficial dealers
Models or colors that you can't find on OMP catalog or website

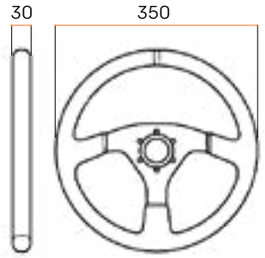

Every OMP steering wheel is marked with an anti-counterfeiting hologram that certifies the authenticity and the quality of OMP products

OMP HOLOGRAM
Example of an anti-counterfeiting hologram applied on rear spokes

Rubber hooks (small).

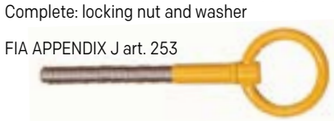

TOW HOOKS

EB0-0571 € **26,00** (A)

Tow hook, stainless steel painted finish.
Stud: M 12 **Internal ø**: 50mm **Thickness**: 8mm
Complete: locking nut and washer

FIA APPENDIX J art. 253

EB0-0576 € **27,50** (A)

Two hook, stainless steel painted finish.
Stud: M 12 **Internal ø**: 80mm
Thickness: 8mm
Complete: locking nut and washers.

FIA APPENDIX J art. 253

TOW HOOKS

EB0-0572 € **49,50** (A)

Aluminium tow hook, flat.
Thickness: 6 mm

STRAPS

EB0-0487 € **39,50** (C)

Stainless steel pins with large slide pins.

PINS

EB0-0483 € **25,50** (C)

Rubber hooks (large).

HOOKS

EB0-0578 € **22,00** (A)

FIA APPENDIX J art. 253
Straps. 2'' ø ring: 14mm Chassis fixing: two hole 8mm and 14mm , Red only.

HOOKS

EB0-0580 € **31,50** (A)

FIA APPENDIX J art. 253
Straps. 2'' With restraint elastic strap. Compliant with FIA rules.

3 PEDALS SET

OA0-1040 € **38,00** (A)

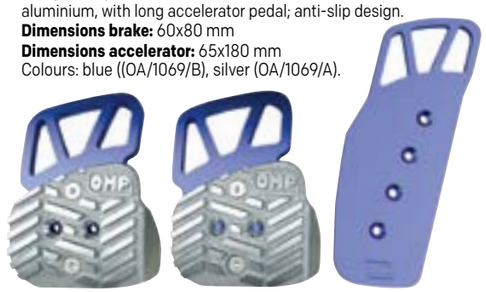

Complete 3 pedal set with short accelerator pedal in silver anodized aluminium. Inserts: rubber anti-slip.
Dimens. brake: 60x80 mm
Dimens. accelerator: 60x105 mm
Supplied with steel bolts

3 PEDALS SET

OA0-1069 € **31,00** (A)

Complete 3 pedal set, in anodized aluminium and sandblasted aluminium, with long accelerator pedal; anti-slip design.
Dimensions brake: 60x80 mm
Dimensions accelerator: 65x180 mm
Colours: blue ((OA/1069/B), silver (OA/1069/A).

2 PEDALS SET (NO PICTURE)

OA0-1072 € **31,00** (A)

Same features of OA/1069 model with 2 pedal set with long throttle pedal; brake pedal for automatic transmission.
Dimens. brake: 140x79 mm
Dimens. throttle: 65x180 mm
Supplied with steel bolts. Colours: black (OA/1072/N), silver (OA/1072/A).

FOOTRERST

OA0-2070 € **31,00** (A)

Driver's left footrest in knurled aluminium.
Dimensions:
285x120 mm

FOOTRERST

OA0-1867 € **30,00** (A)

Driver's left footrest foe left foot, in sandblasted aluminium. Supplied with steel bolts and brackets.
Dimensions:
260x100 mm

FOOTRERST

OA0-2060 € **75,00** (A)

Co-driver's footrest in knurled aluminium.
Dimensions: 335x300 mm

FOOTRERST

OA0-1866 € **53,00** (A)

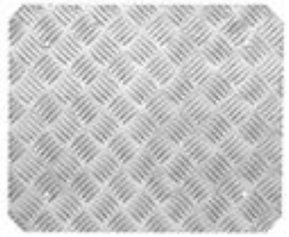

Co-driver's footrest in sandblasted aluminium. Supplied with steel bolts and brackets.
Dimensions: 320x280 mm

FOOTRERST

OA0-2080 € **37,50** (A)

Universal flat footrest in knurled aluminium.
Dimensions:
365x418 mm

3 PEDALS SET

OA0-1010 € **39,00** (A)

Complete 3 pedals in sandblasted aluminium, with a long accelerator pedal. Supplied with steel bolts.
Dimensions brake: 60x100 mm
Dimensions accelerator: 60x210 mm

3 PEDALS SET

OA0-1000 € **35,00** (A)

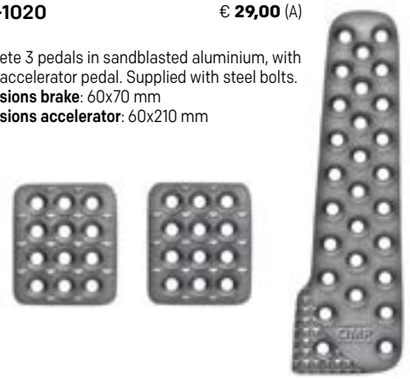

Complete 3 pedals in sandblasted aluminium. Supplied with steel bolts.
Dimensions brake: 60x100 mm
Dimensions accelerator: 60x100 mm

3 PEDALS SET

OA0-1020 € **29,00** (A)

Complete 3 pedals in sandblasted aluminium, with a long accelerator pedal. Supplied with steel bolts.
Dimensions brake: 60x70 mm
Dimensions accelerator: 60x210 mm

3 PEDALS SET

OA0-1863 € **23,00** (A)

Complete 3 pedals in sandblasted aluminium. Supplied with steel bolts.
Dimensions brake: 60x70 mm
Dimensions accelerator: 85x120 mm

3 PEDALS SET

OA0-1030 € **24,50** (A)

Complete 3 smooth aluminium pedals, suitable for rally use, already drilled and countersunk. Supplied with steel bolts.
Thick: 3 mm

3 PEDALS SET

OA0-1050 € **21,00** (A)

Same features as partnumber 0A/1030, but the surface of the pedals is in knurled aluminium and can be shaped as needed.
Thick: 2,5 mm

PIT ACCESSORIES

PROFESSIONAL

NC0-1068 € **153,00** (C)

Aluminium frame. Dimensions: 100x72 cm
Complete with 42 cards of numbers, letters and symbols measuring 23x14 cm and one customizable plate 23x65 cm supplied in a synthetic leather bag, which stores sidely on the aluminium frame when not being used.

TRIPLA

NC0-1067 € **125,00** (C)

Aluminium frame.
Complete with 24 cards of numbers, letters and symbols measuring 23x14 cm
Dimensions: 72x72 cm

CARDS

NC0-1069 € **76,00** (C)

42 spare cards for pit boards KC/1067 and KC/1068, supplied in a synthetic leather carrying pouch.

LIQUID CRYSTAL HANDHELD STOPWATCH

NC0-1040 €**45,00** (C)

CHRONOGRAPH: with split, total elapsed times up to 9h, 59', 59'', 99 seconds. CLOCK: displays hours, minutes, seconds, alarm clock with 12/24h option. TIMER: with presettable countdown timer. 60 lap memory and lap counter. Shows fastest lap, slowest lap and average lap times. 60 memory

HANDHELD STOPWATCH

NC0-1041 € **25,00** (C)

CHRONOGRAPH: with partial and total elapsed times up to 9h 59'59''99, lap times.
CLOCK: with alarm clock and Pacer dater.
TIMER: with countdown function.

CO-DRIVER ACCESSORIES

CO-DRIVER PLUS

OB0-2980 € **60,00** (P)

Lightweight sporty bag with shoulder strap and organizational features included plenty of internal and external accessory pockets. Ideal for co-drivers. Racing suit-inspired design inserts.

DIMENSIONS: 40x34x20 cm.

CO-DRIVER BAG

OB0-2985 € **50,00** (P)

Designed with input from WRC co-drivers, this storage solution supports rapid access and organization under race conditions. Built for durability, with multiple attachment and storage configurations.

Improves operational readiness by reducing search time and supporting route preparation.

CO-DRIVER MAP LIGHT

6400001 € **55,00** (Z)

High efficiency led and flex metal boom, fixing bracket with switch. Lenght: 50 cm

6400002 € **55,00** (Z)

High efficiency led and flex metal boom, fixing bracket with switch. Lenght: 40 cm

6400003 € **55,00** (Z)

High efficiency led and flex metal boom, fixing bracket with switch. Lenght: : 30 cm

OMP BAGS

LARGE TROLLEY

OB0-2983 € **150,00** (P)

- Lightweight and durable fabric
- Double closure with padlock-ready zipper
- Resistant cargo wheels
- Double handle on front and practical upper handle
- Multiple internal storage compartments
- Removable padded divider to store helmet or anything else
- Rigid bottom with standing support
- Coverable air net insert
- Dimensions: 42 x 36 x 92 cm
- Capacity: 145LT

MEDIUM TROLLEY

OB0-2982 € **130,00** (P)

- Lightweight and durable fabric
- Double closure with padlock-ready zipper
- Resistant cargo wheels
- Double handle on front and practical upper handle
- Multiple internal storage compartments
- Removable padded divider to store helmet or anything else
- Rigid bottom with standing support
- Coverable air net insert
- Racing suit-inspired design insert
- Dimensions: 38 x 33 x 70 cm
- Capacity: 86LT

OMP BAGS

SMALL TROLLEY

OB0-2981 € **105,00** (P)

- Lightweight and durable fabric
- Double closure with padlock-ready zipper
- Resistant cargo wheels
- Double handle on front and practical upper handle
- Multiple internal storage compartment and pockets
- Rigid bottom with standing support
- Coverable air net insert
- Expansion system to gain more capacity
- Racing suit-inspired design insert
- Dimensions: 36 x 25 x 56 cm
- Capacity: 22LT / 32 LT expanded

BACKPACK

OB0-2979 € **80,00** (P)

- Lightweight and durable fabric
- Double closure with padlock-ready zipper
- Padded notebook compartment
- Upper handle
- Multiple internal storage pockets
- Upper quick access pocket for documents
- Side water bottle pocket
- Comfortable shaped shoulder straps
- Racing suit-inspired design insert
- Dimensions: 32 x 24 x 50 cm
- Capacity: 20LT

Transparent black acrylic paint for personalization of indicator lights.
Contents: 400 ml

MULTIPURPOSE

PC0-2005 € **11,00** (P)

PRE-WASH DEGREASER AND STAIN REMOVER
- High performance specific pre-wash treat for grease and oil stains
- Helps to blast out grease and dirt from every fabric (fire retardant or karting suits, seats, steering wheels...)
- Ultra fast action
- Special formula with balanced ph
- Vol. 500 ml

SUEDE LEATHER CLEANER

PC0-2006 € **13,20** (P)

- Cleans and hydrates the suede leather of boots and steering wheels covers.
- New formula with aloe vera and natural waxes
- Revives the suede and keeps it soft
- Easy and fast to use
- Vol. 500 ml

FABRIC CLEANER

PC0-2007 € **10,20** (P)

- Wipes off grease and dirt from your racing seats' fabric upholstery.
- Active foam eases the removal of dirt fromthe fibers
- Revives the fabric after the most stressing racing sessions
- Easy and fast to use
- Vol. 500 ml

OMP CHAIR CUSTOMIZED BY mbm DESIGN

MOTO GP / WSBK

OMP E-RACING GTR COCKPITS

OMP started a new exclusive partnership with Playseat®, the world's leading company in racing simulation cockpits. The new OMP e-racing GTR cockpit stands out for the integration with the HTE-R or Champ-R seats, the same FIA-homologated products developed by OMP for real-world racing. The virtual driving experience becomes even closer to the real thing, by perfectly replicating the ergonomics of GT, Touring and Rally cars.

The sim racers more focused on single-seater cars can opt for the Playseat® Formula model, successfully used by many globally renowned drivers.

All the sim rigs are fully compatible with any console, steering wheel, pedal board and simulation platform on the market.

HTE-R SEAT

ER0-0001 € **1.105,00** (D)

The OMP e-racing GTR cockpit is built around the renowed OMP seats.
These racing seats used in real racing enable to replicate the ergonomics of GT, Touring and Rally cars.

CHAMP-R SEAT

ER0-0002 € **900,00** (D)

The OMP e-racing GTR cockpit is built around the renowed OMP seats.
These racing seats used in real racing enable to replicate the ergonomics of GT, Touring and Rally cars.

OMP E-RACING COCKPITS

FORMULA COCKPIT

ER0-0003 € **983,00** (D)

The OMP e-racing custom Formula seat is ideal for sim racers focused con single-seater cars.
It has been succesfully tested by many globally renowed drivers and features a dedicated OMP colour scheme.

STRUT BRACES

We are the leading European manufacturer of strut braces, offering over 1000 vehicle specific applications. Our strut braces are engineered to keep suspension geometry unlatered in hard cornering, while improving feedback to the drive.

STRUT BRACES ALLUMINIUM

MA0-1040

Extruded aluminium strut brace with adjustable ends and steel flanges.

STRUT BRACES STEEL

MA0-1069

Extruded aluminium strut brace with adjustable ends and steel flanges.

BELL HELMETS HISTORY

CONSTANT EVOLUTION

Over 70 years of innovation in the world's most demanding sport

It Takes A Lot to Finish First

To get there, you need an amazing combination of cutting-edge technology, seamless teamwork, proven skill, dedication and unwavering nerve. It also takes a good deal of precaution.

As a company of first, Bell has never stopped the pursuit of serious head protection through innovation and a focus on the future. We were the first company to be Snell certified, introduce an energy absorbing liner system, build a full-face helmet, fire retardant helmet, aerodynamic helmet, anti-fog shield and homologate an FIA 8860 "super helmet".

That same forward thinking defines everything we do and is exhibited in every high-performance racing helmet we build. Delivering the ultimate in protection, innovation, technology and reliability, it's no wonder why more champions have proudly worn Bell Helmets than any other brand.

Time Tested, Champions Trusted

For over 70 years, our commitment to innovative design and progressive approach to safety has defined Bell Racing.

That same attention to detail continues today throughout our entire line of products making each Bell helmet unique and worthy of being worn by the world's best drivers.

The latest generation of Bell Racing helmets offer forward-thinking design, leading-edge technology, superior engineering, outstanding comfort and fit, enhanced ventilation and industry leading features with the latest material innovations and manufacturing techniques to create the most advanced line of racing helmets available in the world today.

1954

MANUFACTURING BEGINS
Bell begins manufacturing its first helmet. (the '500') in a garage located behind Bell Auto Parts.

1957

500-TX
500-TX, the first motorsports helmet to use an energy absorbing EPS liner system.

Jimmy Bryan won the 1958 Indy 500 wearing the 500-TX, Bell's first Indianapolis 500 win.

1966

STAR
Bell introduces the world's first full-face helmet (the Star).

Dan Gurney was the first driver to use the Bell Star in auto racing competition in 1968.

1973

STAR FX
Bell introduces the Star FX, the first fire retardant auto racing helmet.

1978

STAR XF DUAL EYEPORT
The first dual eyeport helmet, Star XF is introduced.

1979

XFM-1
The XFM-1 was the first lightweight composite auto racing helmet. It became the helmet of choice for open-wheel drivers everywhere.

1991

AFX-1
The AFX-1 was the first all Kevlar helmet and the first to feature a ventilation system that incorporated chin bar vents and top vents to create airflow through the helmet.

1992

VORTEX
This is the first ever helmet with aerodynamic elements including trip strips and vortex generators to reduce helmet buffeting in open-wheel environments.

1993

M3
The M3, a multi-use lightweight helmet combined classic Bell features with bold European styling to create a universal design that could be used world-wide in all forms of racing.

1993

FEULING SS
The first aerodynamic helmet for speeds well over 320 kph. Feuling SS featured a front lip and rear wicker that reduced lift and buffeting. Feuling SS first used in 1993 at the Indy 500.

1996

VORTEX TURBO AIR
The Vortex Turbo Air was the first auto racing helmet to feature internal high-speed fans that directed airflow to the face and the shield for comfort and to prevent shield fogging.

1997

DOMINATOR
The Dominator is introduced, the first helmet with gurneys built into the shell for enhanced aerodynamic performance in a compact design.

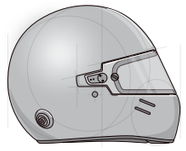

1998

FEULING II
Bell introduces the Feuling II, a redesigned version of the Feuling SS to fit new advanced headrests designed for open wheel racing, featuring a smaller profile and aerodynamic signature.

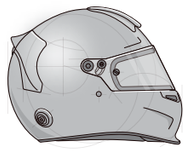

1999

KF1
The KF1 is the first helmet to feature full integration of the edge of the shield into the helmet shell for improved aerodynamic performance.

2004

HP1
Bell's HP1 is the first helmet to be homologated to the FIA8860 advanced helmet standard and used in F1 competition.

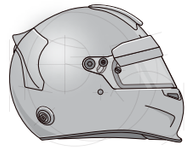

2007

HP3
This model features an ultra-lightweight carbon shell and advanced energy-absorbing liner. A front lip provides aerodynamic stability and air vents maximise airflow inside.

2010

BR1
Bell's BR1 is the first forced air helmet design for use in either a side or top air configuration using a kit system.

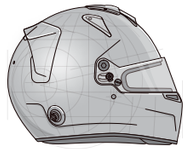

2011

HP3 Visor Panel
Bell is the first company to homologate and use a Zylon Visor Panel in F1 competition.

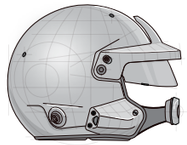

2014

HP7
Bell introduces the HP7 featuring an innovative shell and integrated shield design, moving the pivot locations down and forward to improve acoustic and aerodynamic performance while enhancing energy management capacities.

2019

HP77
Bell introduces the HP77, the first helmet in the world featuring a ballistic reinforcement incorporated into the shell and replacing the visor panel.

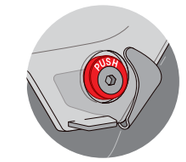

2021

HP10 RALLY
After 2 years of intense Research & Development with the best drivers and best teams, Bell comes back in World Rally Championship, setting new levels of comfort, performance and acoustic qualities thanks to ZeroNoise™ electronics.

2023

WIRED-WIRELESS
Bell Racing and Zeronoise present the ground-breaking Wired-Wireless system for rally and off-road competition. The top-of-the-line helmets from Bell, paired with the new Zeronoise Fearless Wireless intercom, allow driver and co-drivers to communicate without any cable, inside and outside the car.

2024

SmartLock™
Bell Racing launches SmartLock™, a patented, side-positioned, visor locking system for full-face helmets, designed to meet the latest FIA safety standards while preserving Bell's distinctive design DNA.

SmartLock™ Visor Locking System

REVOLUTIONIZING HELMET TECHNOLOGY

The SmartLock™ visor locking system is Bell Racing Helmets' latest breakthrough in safety and performance. Engineered for simplicity and strength, this patented side-mounted mechanism combines cutting-edge innovation with our iconic design heritage.

DESIGNED TO PROTECT. ENGINEERED TO WIN.

From Formula 1 grids to grassroots racing, SmartLock™ embodies Bell Racing Helmets' commitment to advancing driver safety without compromising performance.

Discover the future of visor technology with Bell's industry-leading innovation.

KEY FEATURES

Enhanced Safety:

Designed to meet the latest FIA safety standards, the SmartLock™ reduces the risk of visor release in high-speed impacts.

Unobstructed Vision:

Side positioning eliminates central visual obstructions, delivering a distraction-free field of view.

Aerodynamic Efficiency:

The sleek integration into the helmet design ensures uninterrupted airflow and optimized ventilation.

One-Handed Operation:

Drivers can lock or unlock the visor effortlessly with a gloved hand, allowing full focus on the track.

HOMOLOGATION AND MODELS

All BELL Full Face models that use a visor under FIA8860-2018(ABP), FIA8859-2024 and FIA8878-2024 homologation incorporate the new SmartLock™ Visor Locking System.

- Full face helmet featuring High-strength and High-modulus carbon fibres ultra-lightweight shell.
- Very narrow eyeport.
- Frontal area with integrated ballistic materials for added protection from flying debris.
- Advanced multi-density, multi-piece liner to maximize energy absorption and impact performance.
- Optical-grade Double Screen Anti-Fog (DSAF) visor for high-performance visibility and reliable anti-fog control.
- Powerful and effective top and chin bar ventilation system with 12 air intake and extraction channels for maximum ventilation.
- Air intake system includes two part centre and low profile on sides (installed).
- Shell and shield design optimized to improve aerodynamic performance, reduce internal noise and enhance energy management capacities.
- Integrated channels in face piece offering multiple options to install drinking tube and communication systems.
- Factory-installed Hans anchors included as standard.
- Synthetic rubber gasket seal to prevent dirt and water from entering the helmet.
- Available with frontal chinbar hole for the introduction of the drinking tube (optional special order).
- Shield and pivot kit: SE077 3MM, SV(SE07).
- Dark Grey High Strength – High Comfort FR Fabric interior.
- Equipped with Bell Racing SmartLock™.
- Exterior color: Carbon, Matte finish.

FIA 8860-2018-ABP

FIA APPROVED

MANUFACTURER: BELL RACING HELMETS
MODEL: HP77 EVO-IV
HOM. NO: AH.032.24-C-ABP
FIA STANDARD: 8860-2018-ABP

The HP77 is based on Bell's highly successful and multiple F1 World Champion proven HP7 design. Chosen by a majority of top professional open cockpit racers, the HP77 provides the most advanced protection, featuring a very narrow eyeport on top of which high strength ballistic materials have been incorporated. It is renowned for its lightweight, aerodynamic qualities, superior cooling and amazing defogging system for the intense demands of open-cockpit forms of racing in all types of weather. The HP77 is designed for professional formula racers competing at the highest levels of the sport.

- Full face helmet featuring High-strength and High-modulus carbon fibres ultra-lightweight FIA8860-2018 carbon shell.
- Advanced multi-density, multi-piece liner to maximize energy absorption and impact performance.
- Optical-grade Double Screen Anti-Fog (DSAF) visor for high-performance visibility and reliable anti-fog control.
- Powerful and effective top and chin bar ventilation system with 12 air intake and extraction channels for maximum ventilation.
- Air intake system includes two part centre and low profile on sides (installed).
- Shell and shield design optimized to improve aerodynamic performance, reduce internal noise and enhance energy management capacities.
- Integrated channels in face piece offer multiple options to install drinking tube and communication systems.
- Top spoiler, top and chin bar gurneys available separately.
- Factory-installed Hans anchors included as standard.
- Synthetic rubber gasket seal to prevent dirt and water from entering the helmet.
- Available with frontal chinbar hole for the introduction of the drinking tube (optional special order).
- Shield and pivot kit: SE07 3MM, SV(SE07).
- Dark Grey High Strength – High Comfort FR Fabric interior.
- Alternative interior fabric colors: Tan, White, Red, Purple, Blue, Green, Neon Yellow, Pink and Orange (on special order).
- Equipped with Bell Racing SmartLock™.
- Exterior color: Carbon, Matte finish.
- Available in duckbill version upon request.

MANUFACTURER: BELL RACING HELMETS
MODEL: HP7 EVO-IV
HOM. NO: AH.033.24-C
FIA STANDARD: 8860-2018

Developed through close collaboration with leading F1 drivers and teams, the carbon fiber HP7 is aerodynamically sleek, lightweight and efficient for the intense demands of all forms of racing. The HP7 is equally popular amongst professional drivers in open-cockpit cars and closed Sports cars and GT cars, thanks to its very high level of comfort. For professional drivers competing in high-speed forms of motorsports, the HP7 allows racers to take advantage of the latest technological innovations including aerospace composite materials and advanced energy absorbing liner systems.

FIA STANDARD: 8859-2024

The new GT6 Sport is designed for entry-level racers who demand quality, performance, and aggressive styling at a competitive price. Inspired by the GT6 Pro, the GT6 Sport retains the sleek and modern look while offering a simplified feature set for racers just entering the sport. With its lightweight fiberglass composite shell and wide eyeport, this helmet ensures excellent visibility and comfort, even in closed cockpit environments. The helmet is equipped with advanced multi-density, multi-piece liner technology to maximize energy absorption during impact, making it a safe choice for racers at all levels.

FIA STANDARD: 8859-2024

Precision-engineered for high-speed performance, the R7 Sport replaces the trusted GP3 Sport with a bold new standard in design and function. Featuring a newly sculpted aerodynamic shell, this next-generation helmet is built for clean-air racing environments—from time attack sprints to open-wheel circuits.
Bell's advanced SmartLock™ visor locking system offers secure, one-touch operation, while the Double Screen Anti-Fog (DSAF) visor ensures crystal-clear vision in all conditions. The R7 Sport retains a versatile ventilation system and lightweight carbon-fiberglass composite shell, delivering professional-grade comfort and control.
Designed for racers who demand confidence at every corner, the R7 Sport combines modern performance upgrades with the legacy of Bell's race-bred innovation.

MODEL.: HP10 EVO-II RALLY
HOM. NO:
FIA STANDARD: 8860-2018

The new Bell HP10 EVO-II RALLY WW features more technology than ever with the integrated ZeroNoise® Wired-Wireless system. The helmet supports both communication technologies, traditionally wired, and wireless, all rolled into one, without any external elements. Everything is seamlessly integrated: connector, wireless module, battery, and even the well-known ZeroNoise® adaptive noise canceling algorithm. That means that the helmet is still fully compatible with any other intercom in the market.

The WW (Wired-Wireless) system switches automatically between the two communication technologies without any intervention or interruption. The military-grade wireless module guarantees super-fast communication and a generous distance range of connectivity.

KARTING

RS7-K ULTRA

The RS7-K Ultra is purpose-built for the karting enthusiast, offering a karting-only version of the RS7 series. It features a lightweight carbon composite shell, derived from the HP7 design, ensuring exceptional durability and performance. The innovative shell and shield design enhance aerodynamics and energy absorption capabilities. With its modern and sleek design, the RS7-K Ultra incorporates an advanced ventilation system for optimum airflow. It also includes a double screen anti-fog (DSAF) shield and a rubber gasket seal, providing reliable protection against water ingress during rainy conditions.

SNELL 2025

Purpose-built for the hard-charging kart racer, the RS7-K is the karting-only version (non-fire retardant, extra durable interior) of the RS7 series. Based on the HP7 design and featuring a lightweight composite shell, the RS7-K uses an innovative shell and shield design enhancing aerodynamic performance and energy absorbing capacities. The sleek, modern design features an advanced ventilation system, double screen anti-fog (DSAF) visor and a rubber gasket seal ensuring that water does not enter the eye opening in rain conditions.

JACKIE STEWART
3-time F1 World Champion

Bell Helmets pioneered the motorsport helmet in 1954 and made notable advancements in its design a few years later by introducing expanded polystyrene (EPS) foam.

The 500-TX, one of Bell's earliest open-face helmets, was chosen by the Museum of Modern Art in New York for its exceptional design excellence.

The 500-TX helmet holds the distinction of being the first helmet to receive Snell approval, which established a benchmark for product safety within the industry.

In 1966, Bell launched the world's first full-face motorsports helmet and quickly earned the admiration and support of the world's top motorsport racers and enthusiasts.

During the 1970s, numerous renowned drivers such as Jacky Ickx, Jackie Stewart, Niki Lauda, Gilles Villeneuve, and many others entrusted the protection of their heads to the Bell Star helmet.

Fast-forwarding 50-odd years, Bell is once again introducing the 500-TX Classic and the Star Classic, much to the delight of dedicated classic car enthusiasts and historic car drivers.

The same shape as the famous original Bell Helmets are reintroduced but produced to the last safety standard (FIA 8859/SNELL SA2020) using the latest production techniques and high tech materials.

MAGLOCK

Inspired by the dust and heat of Baja, Maglock Air is a revolutionary way to connect racers helmets to their forced air systems. At the heart of this innovation, a machined magnet creates a solid, air tight sealed bond between air hose and helmet using 30 lbs of magnetic tensile force. Solid enough to endure the roughest rides, the connection can be easily broken by a single hand and small amount of pressure when disconnecting from an oblique angle for a “quick-release” extraction. Designed for fast driver changes and quick exit from a racing vehicle, Maglock is the latest innovation in racing safety and performance.

EASILY CONNECT

MAGLOCK HELMET SIDE

BLACK MLA1001 95,00 €

MAGLOCK HOSE SIDE

BLACK MLA1003 175,00 €

DRINKING TUBE KITS

The integrated drink tube kit includes flexible tubing, L shaped adaptor to properly position the mouth bite valve and a one-way valve for drinking systems. This allows for seamless integration without modifying the face piece or drilling holes in the helmet chin bar (bite valve and drinking system not included).

The drinking tube has the same features as the standard drinking tube and incorporates a new quick connect valve that allows one-handed connection and disconnection.

LARGE TROLLEY

- Lightweight and durable fabric.
- Double closure with padlock-ready zipper.
- Resistant cargo wheels.
- Double handle on front and practical upper handle.
- Multiple internal storage compartments.
- Removable padded divider to store helmet or anything else.
- Rigid bottom with standing support.
- Coverable air net insert.
- Dimensions: 42 x 36 x 92 cm.
- Capacity: 145LT.

2120025 150,00 €

MEDIUM TROLLEY

- Lightweight and durable fabric.
- Double closure with padlock-ready zipper.
- Resistant cargo wheels.
- Double handle on front and practical upper handle.
- Multiple internal storage compartments.
- Removable padded divider to store helmet or anything else.
- Rigid bottom with standing support.
- Coverable air net insert.
- Dimensions: 38 x 33 x 70 cm.
- Capacity: 86LT.

2120027 130,00 €

SMALL TROLLEY

- Lightweight and durable fabric.
- Double closure with padlock-ready zipper.
- Resistant cargo wheels.
- Double handle on front and practical upper handle.
- Multiple internal storage compartment and pockets.
- Rigid bottom with standing support.
- Coverable air net insert.
- Expansion system to gain more capacity.
- Dimensions: 36 x 25 x 56 cm.
- Capacity: 22LT / 32 LT expanded.

2120024 105,00 €

FOLDABLE TRIO HELMET CASE

- Lightweight and durable polyester material.
- Foldable with quick release closure.
- Modular interior compartment to store 3 or 2 helmets according to the needs.
- Designed to be stored inside the large trolley (2120025).
- Loops in fabric to hook the case the in the car.
- Dimensions 81.5 x 41 x 25 cm.

2120029 119,00 €

BACKPACK

- Lightweight and durable fabric.
- Double closure with padlock-ready zipper.
- Padded notebook compartment.
- Upper handle.
- Multiple internal storage pockets.
- Upper quick access pocket for documents.
- Side water bottle pocket.
- Comfortable shaped shoulder straps.
- Dimensions: 32 x 24 x 50 cm.
- Capacity: 20LT.

2120026 80,00 €

HELMET & HANS BAG

- Lightweight and durable fabric.
- Protective lining.
- Storage of helmet and Hans device.
- Zipped side pockets.
- Dimensions: 38 x 36 x 32 cm.

2120028 89,00 €

HP HELMET BAG

- Lightweight and durable fabric.
- Protective lining.
- Zipped side pockets.
- Dimensions: 38 x 30 x 25 cm.

CUSTOM PAINTING

FACTORY CUSTOM PAINTING SERVICE

Bell Racing offers factory custom painting with the guarantee that the painting will not affect the original protective qualities of the helmet.
Each painted helmet comes with an official certificate, proving its conformity with the FIA safety regulations.

Our experience over the past years in painting the helmets of F1 and other professional drivers enables us to reproduce almost every possible design and colours.

TIPS FOR USE

HOW TO FIT A HELMET

AFTER MEASURING YOUR HEAD CIRCUMFERENCE WITH A TAPE MEASURE, CHOOSE THE CORRECT HELMET SIZE

1. POSITIONING THE HELMET ON YOUR HEAD

Put the helmet on by grasping the chin strap halves in each hand and pull the helmet on over your head.

2. ADJUST THE INNER CHEEK PAD FIT

Place two fingers between your cheek and the cheek padding, release the inner edge of the foam collar/ lower cheek pad until it is below your jaw line.

3. FITTING THE HELMET

When properly positioned, the helmet should be worn low on the brow eyes, near the center of the eye opening, touching the top of the head with uniform and firm pressure all around – tight without excessive pressure points.
To fasten the chin strap, thread the end of the strap through both d-rings, loop the strap end back through the inner d-ring and pull it comfortably tight against the throat. Make sure the chin strap is snug against the throat.

⚠ WARNING CORRECTLY USING THE CHIN STRAP

A good fit and a properly fastened chin strap are all that keep the helmet on your head during an accident. Make sure the chin strap is correctly fastened and pulled snugly up against your throat each time you wear your helmet.

4. CHECKING THE FIT

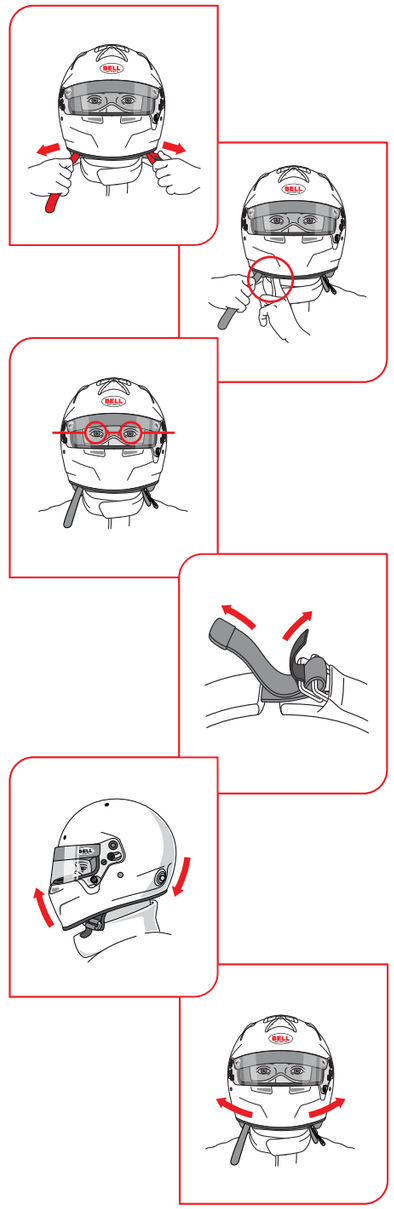

Correctly position the helmet on your head and stand in front of a mirror.
Gently rotate the helmet first from left to right and then from front to back. If the skin on your brow moves with the helmet as it is rotated, the fit is proper. If the skin on your brow does not move when the helmet is rotated in either direction, the fit is too loose. Try various sizes until you find one that fits correctly. With the helmet properly positioned, and the chin strap fastened, try to remove the helmet from your head. Grasp it securely and make a serious effort to roll it off your head in both the forward and backward directions. If you can remove the helmet or are able to roll the helmet backward far enough to expose your forehead or forward far enough to block your vision, the helmet either fits too loosely or the straps are not properly adjusted.

If the helmet is too large or if you can still remove the helmet, DO NOT use it and replace with a smaller size.
Repeat steps 1 through 3
If you cannot remove the helmet and it does not roll either backward far enough to expose your forehead or forward far enough to block your vision, you have a proper fit.
We recommend fitting the helmet with a head sock or balaclava if you intend to wear one in competition.

5. TEST DRIVE

Steps 1 through 3 are critical to getting the most out of your helmet.Spend as much time as necessary to satisfy yourself that you have a good fit. Only after successfully completing steps 1 through 3, put on your helmet and wear it for an extended period or take a test drive. If the helmet feels comfortable, remaining firmly in place and the straps remained properly adjusted, your helmet is ready to use. If the helmet feels uncomfortable or moves excessively, go through steps 1 through 3 as necessary to correct the problem. If you are unable to successfully complete all 3 steps, or if the helmet does not fit and feel comfortable, DO NOT continue to use the helmet.
Either: Return to the dealer for assistance, or contact Bell Racing for further instructions.

Do not use chin cups or wear the strap on the point of the chin.
This will increase the risk of the helmet coming off in an accident.

WIRED WIRELESS

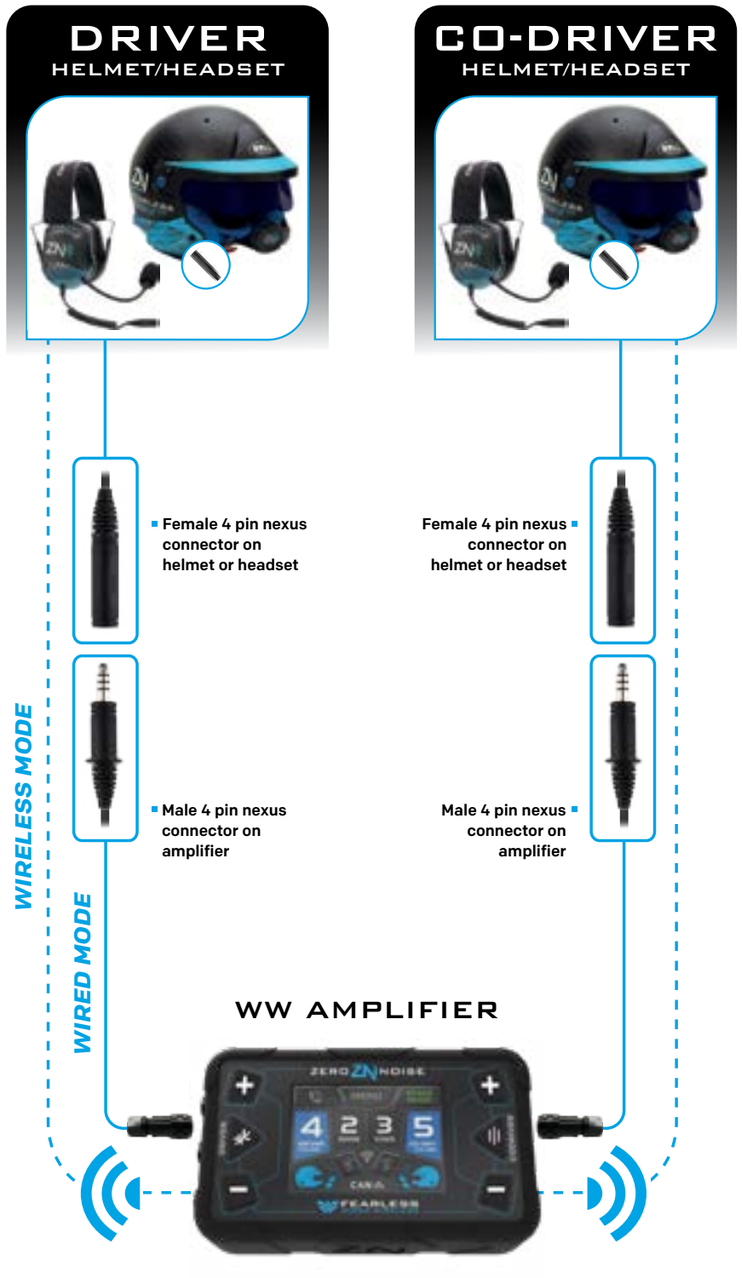

COMMUNICATION SYSTEM

The Wired-Wireless (WW) System enables communication between driver and co-driver both in Wired and Wireless mode. When the helmet IS connected to the amplifier via cable, the communication works traditionally, also keeping compatibility with any Nexus communication system. When the helmet IS NOT connected to the amplifier via cable, the system switches automatically to the wireless mode with no interruption whatsoever.

COMPONENTS

- WW Zeronoise Fearless Amplifier
- WW Bell Helmet radio kits / Helmet radio kits produced by other manufacturers
- WW Zeronoise Headsets / Headsets produced by other manufacturers
- Extensions and adaptors (if needed for different connector systems, e.g. components produced by other manufacturers)

FEARLESS
WIRED WIRELESS

DIGITAL AMPLIFIER FOR RALLY USE

125 x 70 x 35 mm

6100049 € **885,00** (Z)

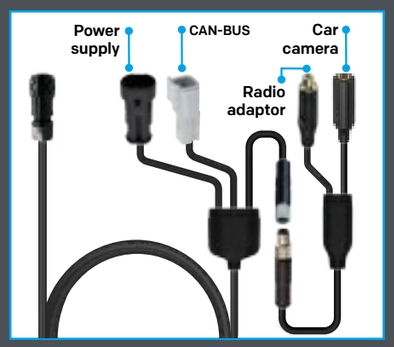

The Fearless Wired Wireless Amplifier is a fully re-engineered communication system built for durability and performance in rally and off-road conditions. It allows to switch seamlessly from Wired to a super low latency Wireless communication inside and outside the car. Rated IP65 for dust and moisture protection, it features a silicone keyboard, IP67 panel-mounted connectors, and a 36% larger display for improved usability. The ClearVoice™ technology ensures clear communication in harsh environments through voice isolation algorithms . Combining wired and wireless military-grade encrypted connectivity, it works seamlessly with Bell Mag-10 Rally Carbon WW and HP10 Rally helmets.

FEATURES

- **WIRED and WIRELESS communication**
- **Clearvoice(TM) technology with adaptive noise cancelling and voice isolation**
- **Multifunction touch display**
- **Bluetooth**
- **Anti shock, anti vibration silicon cover**
- **Dual volume adjustment**
- **Easy fix system on roll bar or dashboard**
- **IP67 connectors for protection and easy replacement**
- **CAN-Bus integration with the car's control system**
- **Full Wi-Fi control from smartphone or tablet**

INCLUDED IN THE BOX

- Audio Out for car camera
- Audio IN/OUT radio connection
- 12V Filtered power cable
- CAN-BUS

RALLY

COMMUNICATION SYSTEM

A Rally communication system is a high-performance intercom designed for extreme motorsport conditions, enabling crystal-clear interaction between driver and co-driver. Built with advanced noise-cancellation algorithms, it isolates and enhances the voice and it eliminates engine roar and road vibrations. Zeronoise systems integrate digital processors, adaptive noise cancelling and voice isolation, and the possibility to set easily audio parameters . IP-rated housings ensure durability against dust, water, and shocks, while wireless and wired options deliver seamless, encrypted connectivity.

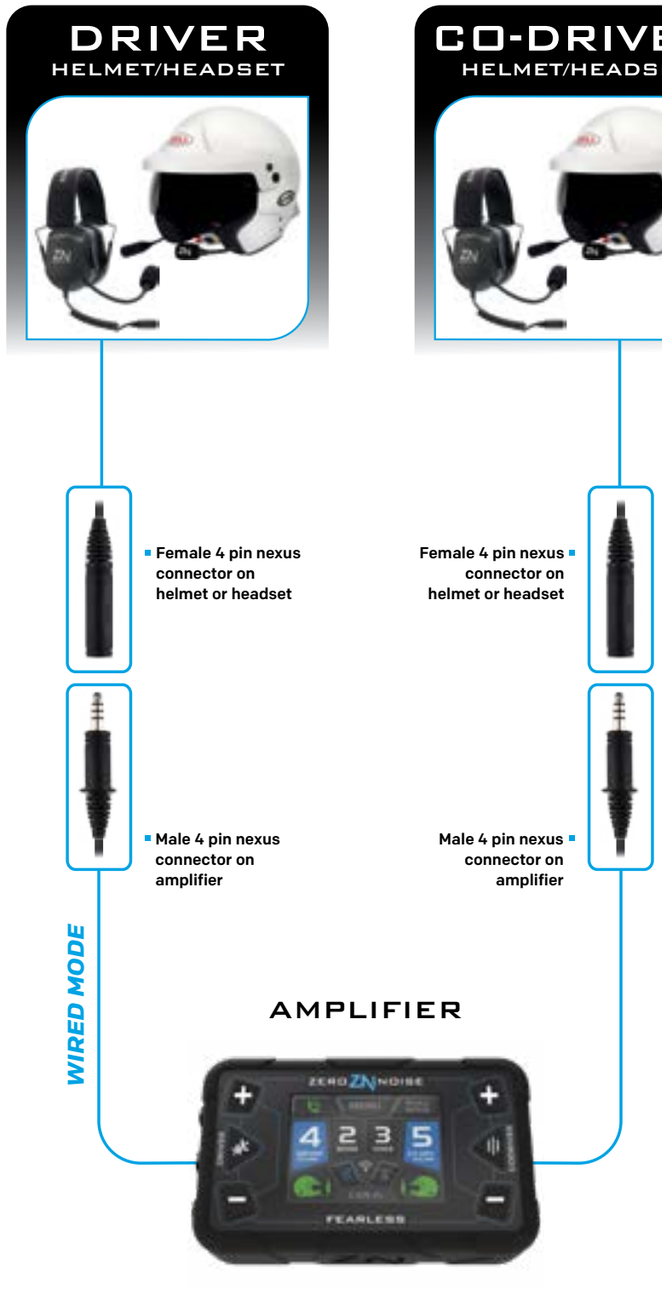

The intercoms also allow multiple connectivity options such as Bluetooth, Radio, Can-bus, and wi-fi to enable a full integration in every autoracing environment.

Zeronoise systems transform chaotic rally environments into zones of flawless communication—boosting speed, safety, and competitive edge.

COMPONENTS

- **Amplifiers**
- **Extensions and adaptors (if needed for different connector systems, e.g. components produced by other manufacturers)**
- **Helmet radio kits**
- **Headsets**

FEARLESS

DIGITAL AMPLIFIER FOR RALLY USE

125 x 70 x 35 mm

6100046 € **425,00** (Z)

NEXUS CONNECTOR

The FEARLESS Digital Amplifier has been completely re-enginnered to a rugged, IP65-rated device designed for motorsport environments, offering superior dust and water protection. It features a 36% larger display for better visibility, a silicone keyboard for reliable tactile feedback, and panel-mounted Nexus connectors for enhanced durability. Powered by a digital processor with ClearVoice™ technology, it reduces background noise and it isolates the voice. Users can adjust audio settings and fine-tune parameters remotely via the ZeroNoise App. It is compatible with Bell helmets, ZeroNoise headsets, and other Nexus-based systems.

CLEARVOICE™

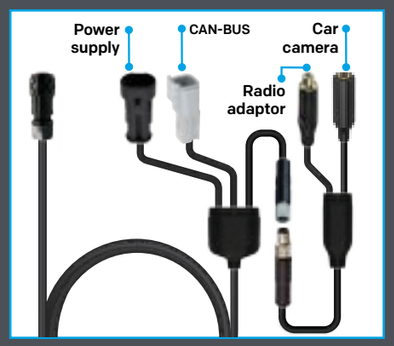

FEATURES

- Clearvoice(TM) technology with adaptive noise cancelling and voice isolation
- Multifunction touch display (It works with gloves)
- Bluetooth
- Anti shock, anti vibration silicon cover
- Dual volume adjustment
- Easy fix system on roll bar or dashboard
- IP67 connectors for protection and easy replacement
- CAN-Bus integration with the car's control system
- Full Wi-Fi control from smartphone or tablet

INCLUDED IN THE BOX

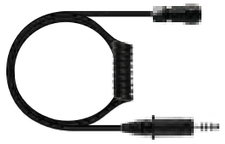

- Audio Out for car camera
- Audio IN/OUT radio connection
- 12V Filtered power cable
- CAN-BUS

FEARLESS

WRC CAN-BUS

PRO DIGITAL AMPLIFIER FOR RALLY USE

180 x 140 x 45 mm

6100036 € **1.250,00** (Z)

NEXUS CONNECTOR

FEARLESS WRC Can-Bus is a professional solution for the most demanding teams and drivers. The intercom features two units inside the box for full reliability, the second being a back up unit that exactly replicates the first one. The Can-bus interface provides full accessibility to the intercoms commands on the dashboard of the car, therefore FEARLESS WRC Can-Bus can be placed anywhere in the car where it is more convenient. The audio performance is the one of the Fearless standard and it integrates Clearvoice™ technology for noise cancelling and voice isolation and enhancement.
On the outside, there are Deutsch connectors to ensure compliance to a motorsport standard.

ONLY AVAILABLE UPON REQUEST WITH CUSTOM CONFIGURATION

DRIVER/CO-DRIVER CABLE NOT INCLUDED WITH AMPLIFIER

6100037 € 460,00 (Z)

Wires and Deutsch connectors from the Fearless WRC CanBus amplifier to the car.

FURY
OFFROAD

DIGITAL AMPLIFIER FOR RALLY USE

125 x 70 x 35 mm

6100045 € **275,00** (Z)

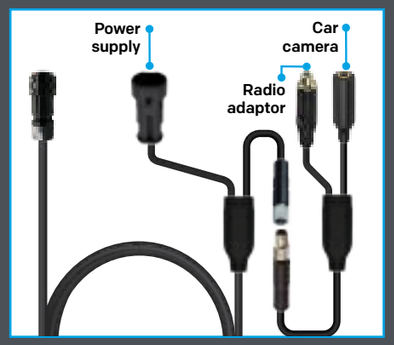

FURY combines the digital sound quality with the simplicity of use. It integrates Clearvoice™ technology for voice isolation in a simple ready-to use package that has been upgraded with IP protection from water and dust for Offroad use. The four pre-set buttons had been carefully designed to refine the sound in any condition. They both work independently or combined.
TERRAIN: The noise cancelling algorithm focusses on the noises coming from the road surface.
BOOST: It enhances the voice volume output for the most demanding drivers. ENGINE: This pre-set is effective on the noises coming from the engine.
ROAD/STAGE: Stage mode turns off the radio output, so the communication is solely between drive and co-driver for maximum focus.

FEATURES

- **Clearvoice(TM) technology with adaptive noise cancelling and voice isolation**
- **Anti shock, anti vibration silicon cover**
- **Dual volume adjustment**
- **Easy fix system on roll bar or dashboard**
- **Remote firmware upgrades via Wi-Fi**
- **IP67 connectors for protection and easy replacement**
- **CAN-Bus integration with the car's control system**
- **Full Wi-Fi control from smartphone or tablet**
- **Sound presets for terrain and engine noise**
- **Boost function for clearer voice levels**

INCLUDED IN THE BOX

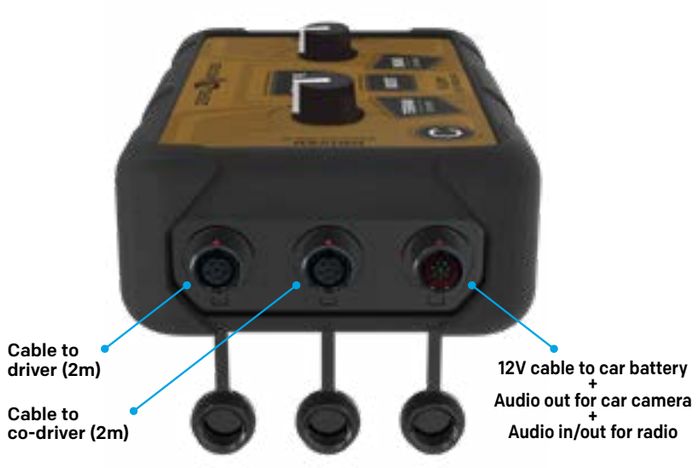

- **Audio Out for car camera**
- **Audio IN/OUT radio connection**
- **12V Filtered power cable**

FEARLESS
OFFROAD

DIGITAL AMPLIFIER FOR RALLY USE

125 x 70 x 35 mm

6100047 € **505,00** (Z)

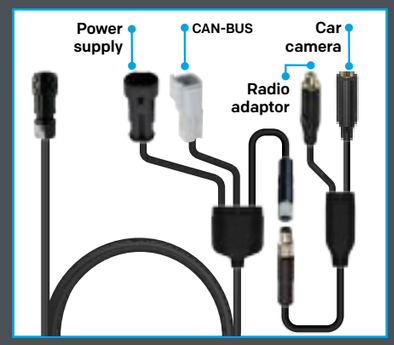

The FEARLESS OFFROAD amplifier includes all the features of the standard Fearless with enhanced water and dust resistance for use in demanding environments. It does not include Bluetooth, or any external connectivity as these features had been disabled at the factory to meet specific regulations. Each unit comes with a Factory Certificate to confirm full compliance with the relevant standards.

FEATURES

- **Clearvoice(TM) technology with adaptive noise cancelling and voice isolation**
- **Multifunction touch display (It works with gloves)**
- **External connectivities disabled by the factory**
- **Anti shock, anti vibration silicon cover**
- **Dual volume adjustment**
- **Easy fix system on roll bar or dashboard**

FURY

DIGITAL AMPLIFIER FOR RALLY USE

125 x 70 x 35 mm

6100038 to 6100040 € **295,00** (Z)

FURY is the digital amplifier that makes the incomparable quality of Zeronoise adaptive noise cancelling available to all drivers. FURY combines the digital sound quality with the simplicity of use. The four pre-set buttons had been carefully designed to refine the sound in any condition. They both work independently or combined.
TERRAIN: The noise cancelling algorithm focusses on the noises coming from the road surface.
BOOST: It enhances the voice volume output for the most demanding drivers.
ENGINE: This pre-set is effective on the noises coming from the engine.
ROAD/STAGE: Stage mode turns off the radio output, so the communication is solely between drive and co-driver for maximum focus.

FEATURES

- Adaptative noise cancelling
- Anti shock, anti vibration silicon cover
- Software updates through USB-C port
- Audio Out for car camera
- Audio IN/OUT radio connection
- Dual volume adjustment
- 12V Filtered power cable
- Easy fix system on roll bar or dashboard

CIRCUIT

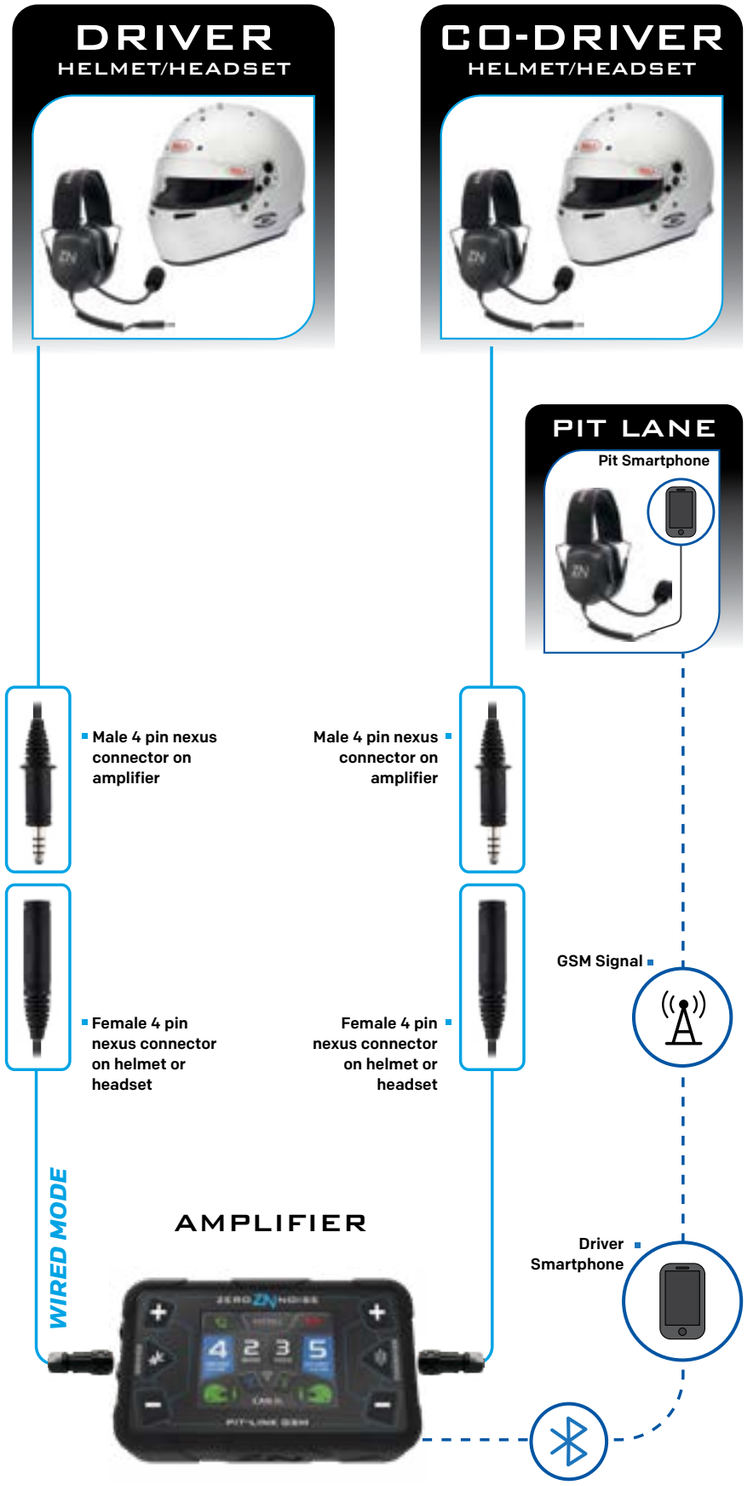

COMMUNICATION SYSTEM

The Circuit Systems enable communication between the car and the pit with a standard phone call, through a professional intercom system connected via bluetooth to the smartphone, as well as in-car communication between driver and co-driver/instructor. PIT LINK allows you to connect up to two people in the car, as well as more cars and more people at the pit by using the conference call feature of the smartphone.

COMPONENTS

- **Pit link GSM amplifier**
- **Helmet radio kits**
- **Headsets for driver or co driver**
- **Extensions and adaptors (if needed for different connector systems, e.g. components produced by other manufacturers)**
- **Pit Link headset for the pit crew**
- **PTT button for call**

PIT-LINK

DIGITAL AMPLIFIER FOR CIRCUIT USE

125 x 70 x 35 mm

6100048 € **555,00** (Z)

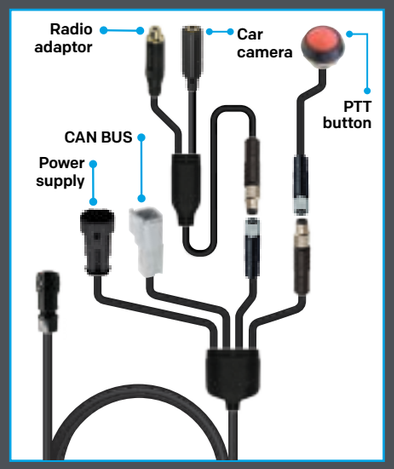

The PIT-LINK Amplifier is a fully redesigned communication system for circuit . The system supports a GSM phone call through Bluetooth connectivity for simultaneous (duplex) car-to-pit communications, activated automatically or via a push-to-talk button. It is the alternative to a traditional VHF/UHF radio with no need of licenses and repeaters. It features a 36% larger display, a silicone keyboard for reliable tactile feedback, and durable panel-mounted connectors. At its core, ClearVoice™ technology isolates and enhances voice clarity, with adjustable settings. Additional features include RCA output for cameras, radio connection, and a 12V power cable.

FEATURES

- Digital active noise filtering
- Multifunction touch display (with gloves)
- Bluetooth as a car-to-pit communication tool
- Anti shock, anti vibration silicon cover
- Dual volume adjustment
- Easy fix system on roll bar or dashboard
- IP67 connectors for protection and easy replacement
- CAN-Bus integration with the car's control system
- Full Wi-Fi control from smartphone or tablet

CABLE INCLUDED

- Audio Out for car camera
- Audio IN/OUT radio connection
- 12V Filtered power cable
- PTT button
- CAN BUS

RADIO HEADSET

PROFESSIONAL HEADSET FOR CIRCUIT USE

6200011 € **195,00** (Z)

RADIO HEADSET 5 PIN MINI-XLR - PTT provides high hearing protection while being comfortable and lightweight. It is ideal to be used at the pit thanks to the dynamic noise cancelling microphone and an adjustable flex boom, and PTT button.

It is fully compatible with all the radio connection wirings 6400032/6400041

FEATURES

- High efficiency speakers
- Dynamic noise cancelling microphone
- Flex boom to adjust microphone
- High hearing protection
- Soft auto adjustable headband
- Confortable earpads
- PTT button
- Wide range of connectors compatible with the most common radio on the market

AVAILABLE CABLE NOT INCLUDED WITH PROFESSIONAL RADIO HEADSET

Connector: I-5C mini XLR ICOM

6400041 € 89,00 (Z)
Connector: Y2-5C mini XLR VERTEX/YAESU

PIT-LINK TRAINER

DIGITAL AMPLIFIER FOR CIRCUIT USE

PIT-LINK TRAINER is the micro amplifier designed to be the perfect communication tool for karting. PIT-LINK TRAINER is a Bluetooth Digital Amplifier that allows to communicate with the pit during a training session. You can wear it around your neck and keep it inside your suit. The digital noise cancelling makes the communication smooth by reducing the noise around the driver. Communication is automatically on when the phone call is incoming. No need to press anything. The pit crew will connect to the driver through a normal phone call. PIT-LINK TRAINER requires PIT-LINK MICROPHONE KIT and PIT-LINK EARPLUGS to be setup in the helmet.

APPAREL | 2026 CATALOG

Racing Spirit

The Racing Spirit brand has been created with a clear mission: to transfer into clothing the passion and experience of OMP, that worked side by side with the most successful teams and drivers in fifty years of motorsport history.

Racing Spirit garments are made by enthusiasts for enthusiasts.
They can be worn every day, in free time or during racing events, ranging from the paddocks of the hottest Formula 1 races to the service parks of winter rallies, in every weather condition. This versatility makes Racing Spirit an ideal choice for different challenges as well, such as those in the yachting world.

Racing Spirit offers a complete range of clothing and accessories for men and women, designed, and developed in Italy, combining style, comfort, performance, and functionality.

Racing Spirit is the meeting point between Made in Italy philosophy, high-end quality, sustainable materials, and innovations, such as the use of graphene.

As for every Racing Force Group brand, the Racing Spirit's DNA contains the desire to always be at the top, setting new benchmarks in the industry.

JACKET SHELL 3L

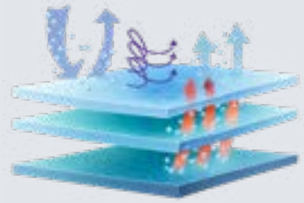

SIZES: XXS-4XL

RS/3L/1101 € **393,40** (RS)

3L technology uses the most advanced fabrics and laminates. The addition of the bonded hydrophilic tricot liner increases the breathability of the garment. As body sweats, the tricot absorbs your moisture and transports it to the laminate so it can diffuse out. This product is environmentally friendly as it utilizes 60% of polyester recycled from water bottles.

GRAPHENE CARBON FIBER COMPOSIT HADDING

NEW

The Winter Snug Jacket blends performance and sustainability to withstand all conditions. The graphene padding provides warmth and comfort with minimal weight.
Made from recycled, and breathable fabric, it offers full protection against wind and rain, with heat-sealed seams and a Durable Water Repellent (DWR) treatment. Carbon-look details and a stowaway hood with reflective print enhance both style and visibility.
The fit is adjustable thanks to a drawstring at the hem and hook-and-loop fasteners closures at the cuffs.

POLO

Our technical polo and tees are designed to move naturally and effortlessly providing the performance you need. Synthetic materials have come a long way in terms of quality and performance.

Once seen with skepticism, polyester and Nylon products are now a technological advanced way of manufacturing clothing for the activewear and sports brands. Develop to enhance comfort, synthetic fabrics quickly disperse sweat thanks to their structure and keeps the body cool and dry. Our spirit of innovation lives on by holding and enhancing the virtues of both OMP Racing and Bell Helmets.

TECNO PIQUÉ

It's designed and manufactured to guarantee total freedom of movement and comfort in any situation. It also features an anti-pilling finish that makes this stay smooth and comfortable. Antibacterial treatment.

TERM SALE

By placing an order, the buyer accepts and unconditionally agrees with the conditions described in this document, and untertakes to follow them during the course of the business relationship with Racing Force, declaring to have read and accepted them. The buyer also agrees that Racing Force don't consider themselves bound to different conditions, except where agreed in writing in advance. The buyer accepts the terms of sale indicated below. In the event of any legal dispute, the Court of Genoa, Italy, is competent.
Racing Force reserves the right to modify the terms of sales anytime, also in view of possible regulatory changes.
The new Terms Of Sale will be effective starting from the date of publication on OMP Racing official website (www.ompracing.com). For any request of clarification or complaint, contact the following email address: info.rf@racingforce.com

CHARACTERISTICS AND PRICES OF PRODUCTS The price indicated are VAT excluded. The characteristics and technical data of the items presented in this catalogue are not binding and can be changed without notice. The products' colors can also be considerably altered.

RETURNED ITEMS – DELIVERY TIME Racing Force is not responsible for delayed deliveries and will not pay for possible consequent damages. Returned goods will be accepted only when authorized by Racing Force, provided with regular goods return note, and carriage paid. Racing Force will charge all the costs deriving from damages on the returned goods or missing parts. Defective or not functioning items that will be returned after having been purchased will be repaired in the necessary time and will not be substituted by new ones in any way. Orders made in writing (fax, mail, e-mail, etc.) will be considered automatically confirmed and will be forwarded in accordance with the normal procedure. The goods travel at the risk of the consignee, and any damage caused during the carriage will be charged to the consignee.

CARE AND MANTAINANCE Before the use of any item, carefully read the labels and the user's manual, and strictly follow the instructions. Improper use or mantainance can reduce the effectiveness of the item, provoke untimely wear and increase the risk of serious or lethal injuries in case of accident or fire. Improper use or mantainance void the guarantee and relieve Racing Force from any responsibility towards the user.

WARNING

Motorsport is an intrinsecally dangerous activity, that can result in serious or lethal injuries. The items described in this catalogue provide for protection on specific parts of the body for a a limited period of time in controlled test conditions, in accordance with the FIA standard specified on each item's label. No device can provide a complete protection from every injury in case of accident or fire. The user, at the time when he uses the products, relieves the manufacturer, the distributor, the owner, the employees, the agents, the sales representatives from any responsibility. It is the user's responsibility to become familiar with all available informations about the correct use and mantainance of the products. If uncertain of the correct use and mantainance, the user must not use the products. The manufacturer, the distributor and their respective owners, employees, agents and representatives are not responsible for mistakes or omissions.

DISCLAIMER
- Each personal safety device is part of a complete safety system including the other racewear products, protections, the vehicle, the racetrack, the event organization.
- Personal safety products are not conceived to provide the same performance level or protection through the whole specific product. Different parts or areas of the product can provide different levels of protection, in spite of the fact that they may appear the same.
- Personal safety products must always be inspected before use and replaced after any evidence of wear, and after exposure to chemicals, excessive heat or any unusual condition.
- Products are sold to be used in legally sanctioned autosport events only, and are not intended to be used and/or installed for regular street use, as street use safety products are subject to different homologations and laws depending on the State or country.
- It is the user's responsibility to become familiar with all available informations about the correct use and mantainance of the products. If uncertain of the correct use and mantainance, the user must not use the products. The manufacturer, the distributor and their respective owners, employees, agents and representatives are not responsible for mistakes or omissions.
- Every single modification or customization of the products, and every operation on them may reduce their security features.
Thus, the user is responsible at his own risk for the reduction of security features caused by modification or customization.

BY THE USE OF THESE PRODUCTS, THE USER ACKNOWLEDGES:
That each personal safety device is part of a complete safety system including the other racewear products, protections, the vehicle, the racetrack, the event organization; that personal safety products are not conceived to provide the same performance level or protection through the whole specific product. Different parts or areas of the product can provide different levels of protection, in spite of the fact that they may appear the same; that personal safety products must always be inspected before use and replaced after any evidence of wear, and after exposure to chemicals, excessive heat or any unusual condition.
That the helmet is conceived and designed to reduce the risk of cranial and facial injuries only in case of impact. That no helmet can protect against any possible and forseeable impact. That helmets are not recommended and sold for high-risk jobs such as refuelers. Further information at the following web addresses: www.ompracing.com and www.ompamerica.com
